## **DETAILED ACTION**

### **Election/Restrictions**

1. This application is in condition for allowance except for the presence of claim 1 to Group I non-elected without traverse. Accordingly, claim 1 has been cancelled.

### ***Allowable Subject Matter***

2. Claims 2-14, 16-22, and 24 are allowed.

## **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Curry on October 5, 2005.

4. Claims 1, 15, and 23 have been canceled.

5. Claims 16-20 have been amended as follow:

Claim 16. (Currently amended) The method of claim ~~45~~ 2, wherein said data communication server includes software architecture including software functional layers, the layers including a system resources layer, a system services layer, an application programming interface layer, and an application layer, and the application programming interface layer including components representable by objects for providing communication services with each object including a communicator, a receptor, and service logic.

Claim 17. (Currently amended) The method of claim ~~45~~ 2, wherein said steps of transmitting and receiving includes providing packet handling services, the packet handling services including a radio data bridge across the radio communication path, via a data link layer of a protocol stack, the radio data bridge including end-to-end error correction and end-to-end packet sequencing; and  
the radio data bridge including either of a half-rate, full-rate, or combination of half-rate and full-rate channels across the radio communication path.

Claim 18. (Currently amended) The method of claim ~~45~~ 2, further comprising:  
assigning a pre-determined IP address to the first ground station; and  
allowing access to said transmitted and received information only for pre-determined users of said IP address.

Claim 19. (Currently amended) The method of claim ~~45~~ 18, further comprising:  
performing authentication procedures, using a remote access dial-up service to a ground server, on users before allowing access to said transmitted and received information only for pre-determined users of said IP address; and  
securing said transmitted and received user information from unauthorized access using a secure socket layer protocol.

Claim 20. (Currently amended) The method of claim ~~45~~ 18, further comprising:  
performing authentication procedures, using a remote access dial-up service to a  
ground server, on users before allowing access to said transmitted and received  
information only for pre-determined users of said IP address; and  
securing said transmitted and received user information from unauthorized access using  
a PGP security protocol;

said step of securing including the steps of:

- creating a digital signature by generating a hashing code of the user information to  
be transmitted;
- encrypting the code with the user's private key;
- encrypting the user information using a randomly created session key; and
- encrypting the session key using the public key of a recipient of the user information.

6. Any inquiry concerning this communication or earlier communications from the  
examiner should be directed to Jeffrey C. Pwu whose telephone number is 571-272-
